DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 and 29, as presently and best understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Maurer et al. (3530513).

Regarding claims 1 and 29, the Maurer et al. reference discloses a movable wall mounted dental unit or sink fixture (about 4, 38 & 36 in Fig. 1). The fixture includes a bowl or sink (at 4), means for moving the sink vertically (at 36), means for moving the sink horizontally (about 22 & 23 in Fig. 2) and maintaining a constant distant between the sink fixture and the wall. The Maurer et al. sink fixture also includes a "locking" feature which creates friction and keeps the fixture at the desired position (col. 3, lines 62-75; col. 4, lines 1-12).

Regarding claim 2, the means for moving the sink vertically further includes a support bracket (at 36) and a fixture base (at 38).

Regarding claim 3, the means for moving the sink horizontally further includes a pair of support rails (at 22 & 23) and a fixture base (at 38).

Regarding claim 4, the means for locking the sink at a desired location comprises a securing bolt assembly (col. 4, lines 1-12).

Response to Amendment

3. Applicant's amendment to claim 1, filed on 03/31/2003, is not sufficient to overcome the prior art rejection as stated above.

Response to Arguments

4. Applicant's arguments with respect to the pending claims 1-4 and the new claim 29 have been considered but are moot in view of the new ground of rejection as discussed above.

Conclusion

5. Applicant's amendment has necessitated the new ground of rejection presented in this Office Action. Accordingly, **THIS ACTION IS MADE FINAL**. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
